

FUNERAL CONSUMERS ALLIANCE (FCA)

Our Mission

The goal of Funeral Consumers Alliance is to ensure consumers are fully prepared and protected when planning a funeral for themselves or their loved ones. We do this by offering objective facts about funeral planning so families can plan a meaningful goodbye that fits their needs and their budget.

Informing and Supporting Consumers

We help by:

- Informing consumers of cost options to ensure they are spending what they can afford to get what they want
- Consulting price surveys by state to help inform shoppers
- Advocating for consumers with the Federal Trade Commission and other agencies who set and enforce funeral laws and rules
- Educate the public to what families can do to pay a fair price while still creating a meaningful funeral
- Provide written materials that explain the truth about funerals from the moment of death to the final disposition
